

Ballot Tracker Absentee Voter Management Solution

Ballot Tracker™ saves staff time when time is of the essence. The system improves the efficiency of delivering service to constituents who require absentee ballots.

This is a database-accessible tool that saves staff time in processing absentee ballot applications, locating precinct and polling information, and producing easy-to-understand work documents and mailing labels.

The result is timely information to meet your absentee voter requirements.

10 Reasons Why

Is an **easy to use**, Microsoft-based compatible application

Is totally **unique**

Delivers a **low cost** solution

Stores absentee voter name and address information in an **electronic record**.

Automatically **post key milestone dates** during the processing of an Absentee Voter application.

Quickly and immediately looks up a Precinct/Polling Place for a voter using the **"Precinct Finder"**.

Produces **mailing labels** for only those you need

Records the **acceptance or the rejection** of an Absentee ballot

Prints voter day worksheets and archive reports for **record retention**.

Stores Absentee applications for future elections
